ADDITIONAL NOTES

[1] Basic Users are recommended for individual email consumers looking for first-class email service.

[2] Premium Users are most suitable for business email users with office based activity.

[3] Pro Users are best appreciated by active, intensive email users like sales, marketing or management staff within a business.

[4] Starting from 150 total users, split on your needs, in any combination, within your own cloud or on-premise installations.

[5] Exceptionally flexible licensing, allowing variable number of extra users/mailboxes with monthly checkup and quarterly billing based on actual usage.
